Memory Support at Renaissance

Mission, Vision & Values

We strive every day to be collaborative, accountable, respectful, ethical and service-driven, and we'll do whatever we can to make a positive difference in the lives of all those we serve.

Confidence & Care Go Hand in Hand

Renaissance at The Terraces is located within The Terraces at Bonita Springs, a not-for-profit Life Plan Community. As part of the Acts Retirement-Life Communities family, we foster an environment of trust and wellness among residents, their families, and community health care providers.

Our mission to enrich the life of each senior we serve led to the creation of our Health Clinic and Vitality Rehab Center. They, as well as all our health services - assisted living, memory support, skilled nursing, and rehabilitation - are available to the public with no entrance fee.

Personalized Alzheimer's & Dementia Care Programming

EQoL

Our unique EQoL (Enhancing Quality of Life) program is specifically designed around the individual preferences of your loved one. Our programs include mindful and meaningful person-centered activities, including:

- Pet Therapy
- Walking Clubs
- Cardio Drumming
- And Many More

The program focuses on the six domains found in Recreational Therapy:

- Emotional
- Spiritual
- Cognitive
- Social
- Physical
- Vocational

B.O.T.S.

Our unique B.O.T.S. (Butterflies of the Soul) training and development program uses a combination of proven care methods and most-effective technology to create an unsurpassed care model for your loved one. Our ongoing staff training program combines the best practices in the industry with innovative initiatives to improve resident and staff satisfaction.

The program will include person-centered care techniques and virtual dementia training.

BELOVED

Our unique BELOVED program provides a combination of supportive care management, family and caregiver support groups, and individualized care planning inclusive of your whole family's needs.
